DETAILED ACTION

1. The preliminary amendment and IDS, filed 3/2/04, have been received.
2. Claims 10-21 are pending. Claims 1-9 have been canceled.

Claim Objection

3. Claims 14-21 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 10-13. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k). The claim language is identical for the above claims, except for the name of one term. The term "N_Port_Name" (claim 10) is renamed as "fiber channel frame header information" (claim 14) while the term "table" (claim 10) is renamed as "correspondence information" (claim 18). Although the name of the term changes, the scopes of the claimed inventions are identical because the above terms have the same limitations (see claim language).
4. Dependent claims 11-13, 15-17, and 19-21 also have the same scope/content.

Allowable Subject Matter

5. Claims 10-21 have allowable subject matter. Claims 10-13 are allowed. Claims 14-21 are rejected for being duplicates of claims 10-13.
6. The following is an examiner's statement of reasons for allowance:
7. The prior art of record does not teach nor suggest the claimed storage system. More specifically the prior art of record does not teach nor suggest the claimed a storage control device

Art Unit: 2187

that controls access from the plurality of host devices to said plurality of storage devices; wherein said storage control device includes a table having N-port-Name that is information to uniquely identify the plurality of host devices and LUN that is information to identify the plurality of storage regions, and wherein said storage control device requests entry of a password when the table is made.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

9. This application is in condition for allowance except for the following formal matters:

See above objection to duplicate claims. It is suggested that Applicant only pick one set of claims (for ex. claims 10-13) to be issued and cancel the remaining duplicate claims (claims 14-21).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
